## PERSONAL STATEMENT

I am an undergraduate student pursuing a Bachelor of Science in Information Technology, currently seeking a suitable on-the-job training opportunity where I could practice my knowledge and develop my personality as a career person while utilizing my skills.

## EDUCATION

- **Camarines Sur Polytechnic Colleges (2021 – present)**  
Bachelor of Science in Information Technology
- **Bula National High School (2019 – 2021)**  
Technical-Vocational-Livelihood – Computer Systems Servicing NCII
- **Balaogan Elementary School (2009 – 2015)**

## PROJECTS

### SIMPLE HARDWARE POINT-OF-SALE MANAGEMENT SYSTEM JAVA GUI

Java, MYSQL

A simple point-of-sale management system created using JAVA. It allows to calculate, manage products, store clerks, and many more. It offers an easy-to-use interface for clerks to conduct consumer transactions and manage sales. The system does away with the necessity for manual listing of transaction details, clerk names, and merchandise.

### Documento File Management System

Laravel, PHP, MYSQL, JavaScript

This simple system is intended to serve as a files backup and storage for all the intended users. With this management system, this will provide efficiency and minimizing storage for all the users and providing more features that will help them manage their files easily and with ease. More specifically, this system is designed to allow an admin to manage all the user for this system.

### PI – Lock System (A Collaborative Capstone Project)

PHP, Laravel, Tailwind CSS, Livewire, Daisy UI

This is a major project for our Capstone Project for the Smart Door Lock System. Developed at Camarines Sur Polytechnic Colleges. The features are the following: making schedules, validating schedules, attendances, making events, and many more. Served my role in project as a Project Head and QA Tester.
